

PROFESSIONAL SUMMARY

Flutter Developer with 2+ years of experience designing, developing, and deploying scalable cross-platform mobile applications for Android and iOS. Proficient in Flutter, Dart, RESTful API integration, Firebase, and state management (Bloc/Provider). Experienced in building real-time tracking systems, offline-first applications, and responsive UI/UX. Strong ability to optimize performance, debug issues, and deliver high-quality applications in fast-paced environments. Available for immediate joining.

TECHNICAL SKILLS

- **Languages:** Dart, Core Java
- **Frameworks:** Flutter
- **State Management:** Bloc, Provider
- **Backend & APIs:** RESTful APIs, Firebase
- **Tools & Technologies:** Git, Android Studio, VS Code
- **Mobile Features:** Google Maps, Location Services, Push Notifications
- **Concepts:** Responsive UI, Offline-first Architecture, Performance Optimization, Debugging & Troubleshooting, Agile development

PROFESSIONAL EXPERIENCE

Freelance Flutter Developer (Current)

- Built a CRM mobile application with end-to-end workflow management.
- Implemented real-time tracking and attendance features.
- Designed offline-first architecture with reliable data synchronisation.
- Optimised performance using Bloc/Provider and efficient API handling.
- Developed lead management and reporting modules.

Flutter Developer

Indtrack Technology Pvt Ltd | Feb 2024 – Dec 2025

- Developed and maintained cross-platform apps using Flutter (Android & iOS).
- Built responsive UI components following modern UI/UX standards.
- Integrated RESTful APIs and Firebase for real-time data synchronisation.
- Implemented Google Maps and location services for live tracking features.
- Deployed apps to Play Store/App Store; ensured compliance and release quality.
- Collaborated with stakeholders; gathered requirements and delivered on time.
- Delivered 3+ projects concurrently with performance optimisations.

Data Engineer

EC Mobility Pvt Ltd, Aurangabad | Feb 2022 – Jun 2022

- Processed and analyzed data using Linux file systems and HDFS.
 - Worked with ADAS-related datasets; improved data handling workflows.
-

PROJECTS

CRM Mobile Application

- Developed a Flutter-based CRM application for field activity tracking and reporting.
- Implemented real-time tracking, offline-first capabilities, and workflow automation.
- Integrated REST APIs and optimized application performance for smooth user experience.

School Management System

- Built a mobile application to manage student-teacher interactions, attendance, and academic tracking.
- Tech Stack: Flutter, Firebase (NoSQL), Dart
- GitHub: <https://github.com/rasikakalmegh12/minorproject>

KEY ACHIEVEMENTS

- Improved application performance by up to 25–30% through optimized API handling and efficient state management.
 - Successfully delivered 3+ Flutter projects simultaneously, ensuring 100% on-time delivery.
 - Developed real-time tracking systems used to monitor field activities, improving operational visibility.
 - Reduced app crashes and improved stability by implementing structured debugging and error handling.
-

EDUCATION

Master of Computer Applications (MCA)

Government College of Engineering, Ch. Sambhaji Nagar | 2020 – 2022 CGPA: 9.2

Bachelor of Science (Computer Science)

Shri Shivaji Science College, Nagpur

CERTIFICATIONS

- FullStack Development Course – QSpiders, Pune (2022 – 2023)
-

ADDITIONAL INFORMATION

- Strong problem-solving and analytical skills
- Excellent communication and teamwork abilities
- Experience working in Agile and fast-paced environments
- Understanding of mobile development lifecycle, debugging, and performance optimization
- Available for immediate joining
